

## Technical Information

### hebro<sup>®</sup>cut 91-108

## High efficiency cutting oil for the metal working

- Is a high performance epoxy resin lubricant for the metal working.
- Is suitable for the use in circulating and small quantities lubricating systems.
- Is used in the metal working for threading, thread rolling, deep drawing, stamping, drawing, sawing, grinding, lowering, and drilling and so on.
- The degree of efficiency of machines and the service life of tools are increased considerably.
- Is suitable for steel and cast substances; limited non-ferrous metal suitable.

## hebro<sup>®</sup>cut 91-108 offers the following advantages:

Economical	a fast and problem-free working reduces downtimes and labour costs.
Cost-effective	high economy through very low required quantities, high surface effectiveness, high tool life.
User-friendly	free from chlorine and heavy metal.

### Technical data:

Density at 20 °C	0.91
Flashpoint	> 260 °C
Viscosity at 40 °C	42 mm <sup>2</sup> /s
