

## Technical Information

### ■ hebro<sup>®</sup>protect 2

#### Product

hebro<sup>®</sup>protect 2 is a corrosion protection for all metals.

#### Characteristics

hebro<sup>®</sup>protect 2 is a corrosion protection product with low viscosity which is universally applicable.

hebro<sup>®</sup>protect 2 forms a brown, waxy protective film.

hebro<sup>®</sup>protect 2 is free from barium compounds, chlorinated solvents and silicone compounds.

hebro<sup>®</sup>protect 2 is ready to use and especially easy to remove manually. The additional use of cleaning agents is not necessary.

hebro<sup>®</sup>protect 2 is mainly used on tools, semi-finished products and production parts for temporary storage and offers medium-term corrosion protection for indoor storage.

#### Advantages

hebro<sup>®</sup>protect 2 is ready to use and universally applicable and therefore very economical.

hebro<sup>®</sup>protect 2 is easily to remove despite its good corrosion protection properties which offers a wide range of application.

hebro<sup>®</sup>protect 2 is completely free from barium compounds, chlorinated solvents and silicone compounds. Therefore it helps to improve the occupational safety.

## Technical Information

2

### Application area

hebro<sup>®</sup>protect 2 is used wherever a medium-term corrosion protection is required.

### Dosage

Aerosol can: Shake well before use. Hold in an upright position and spray with a distance of 20-25 cm on the surfaces to be treated.

Loose goods: dip and paint application is possible. In all processes make sure to achieve a sufficient drying time to ensure a complete film formation.

### Technical data (loose goods)

Appearance: brown                      water solubility: insoluble  
Odor: mild                                  protective film: waxy

### Disposal

Empty containers may simply be disposed of by our Interseroh System.
