

## Technical Information

### hebropeel weiß

## Water based strippable coating – white – solvent free, reflecting (water soluble)

- is liquid and easy to handle
- coat simple the protective area – expensive cleaning time can be avoided.
- surfaces which must be cleaned often or regular in consequence of a process during the production will be protected economical.
- water soluble, easy to remove

### hebropeel-weiß offers the following advantages

<b>Economic</b>	quick and easy cleaning minimizes machine down-times and labour costs.
<b>Highly effective</b>	reduce work. It is tearproof, highly elastic and removable in large stripes.
<b>Working atmosphere</b>	cares for clean and clear workplaces, machines and equipments. Creates a pleasant working atmosphere.
<b>Economic</b>	solvent free. Causes no emission.

### Application:

**hebropeel-weiß** will apply through coating, rolling or airless-spraying. With 1 litre **hebropeel-weiß** you can treat approximately 5 m<sup>2</sup> of surface. **hebropeel-weiß** is ready for application but should be mixed up before using. By airless-spraying please do not rinse the equipment with solvents, because the product can coagulate by the solvent.
